

# HSM StoreEx HDS 230

## HSM StoreEx HDS 230 digital data media shredder

Secure, data protection compliant and economical. This digital data media shredder shreds digital data carriers into little particles and makes data recreation virtually impossible.

### Technical data

<b>Order number:</b>	1777124F	<b>Cutting capacity CD/DVD:</b>	6000 St/h
<b>EAN</b>	4026631075886	<b>Cutting capacity magnetic tapes:</b>	420 St/h
<b>Cutting type:</b>	particle cut	<b>Loading aperture Length x Width x Height:</b>	300 x 165 x 60 mm
<b>Cutting size:</b>	11,5 x 26 mm	<b>Noise level (idle operation):</b>	ca. 55 dB(A)
<b>Security level (DIN 66399):</b>	E-2   H-5   O-2   T-3	<b>Width x Depth x Height:</b>	2879 x 905 x 1712 mm
<b>Voltage / Frequency:</b>	400 V / 50 Hz	<b>Weight:</b>	1225 kg
<b>Intake width:</b>	165 mm	<b>Shredder material:</b>	Credit card, CD/DVD, Floppy disk, Hard drives up to 3.5", Magnetic tapes up to 3.5"
<b>Cutting capacity HDD up to 3,5":</b>	280 St/h		
<b>Cutting capacity HDD 2,5":</b>	1150,0 ST/H		

### Product information

The discharge conveyor belt makes the collection of the shredded material easy and convenient. Any standard container can be used to collect the material at the end of the conveyor belt.

Thin optical, magnetic and electronic data media can be shredded comfortably and quickly using the input slot.

It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch which, when activated, will do just this.

**Continuous energy-saving operation with low noise level**

This powerful machine provides an excellent cutting performance combined with reliable continuous operation and a low noise level.

**Convenient operation via the membrane keypad with display**

The selection of the correct functional mode will always ensure maximum throughput for the respective material type.

**Solid steel cutting rollers**

The induction-hardened, solid steel cutting rollers are robust and ensure a long operating life.

**LED display for continuous input of media**

The large and clearly visible LED display enables the continuous input of media at a comfortable working height.

**For decentralised destruction**

Data media can be shredded easily in decentralised locations with this machine.

**Material anti-jam function**

The automatic reverse function rectifies material jams and ensures smooth shredding operations.
